# Album StoryBoard Overview

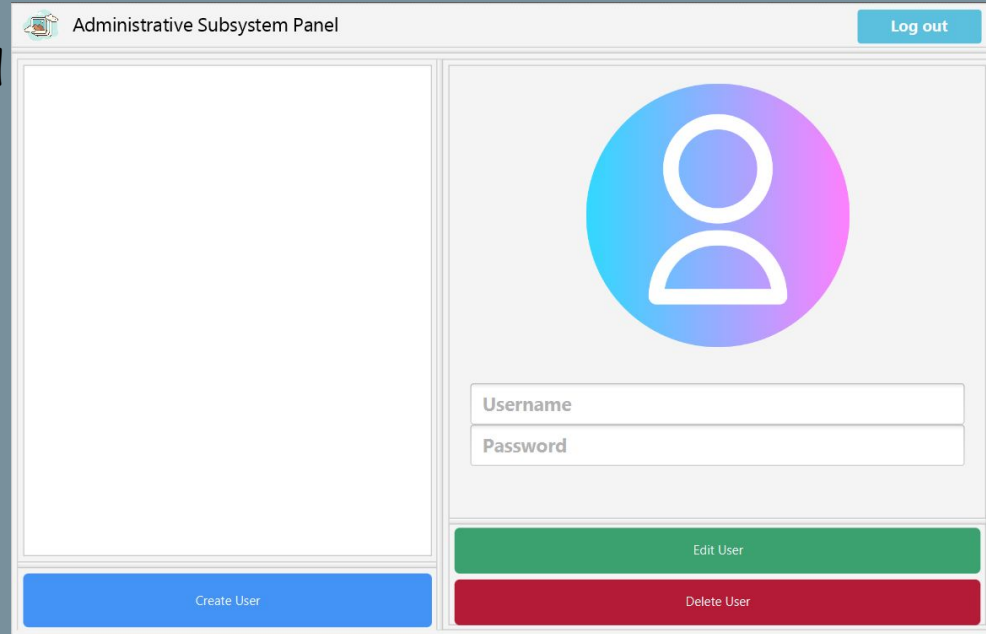

# Login Page

- Login Page appears when the program starts
- User enters the valid username and password
- If user is an Admin then they'll be redirected to the Admin page
- If user is a valid user they'll be redirected to the User page

# Admin Page

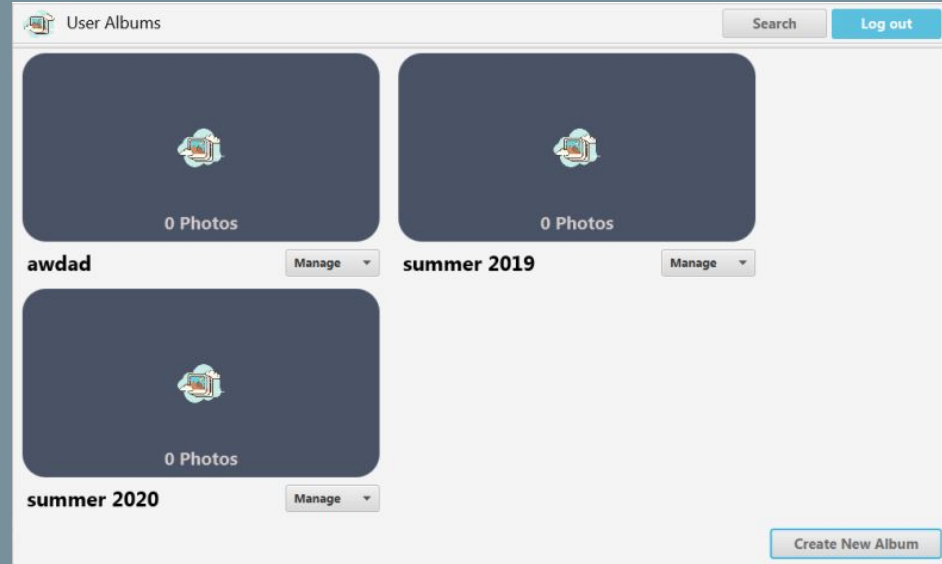

- All the users would be presented in a list view
- From here we can manage the users in this system by adding and deleting users
- When the admin is done he/she can click the logout button to return back the the login page

The image shows a web interface titled "Administrative Subsystem Panel". It features a header with a small icon and a "Log out" button. The main area is divided into two columns. The left column is empty, with a "Create User" button at the bottom. The right column contains a large circular profile picture placeholder, followed by "Username" and "Password" input fields. At the bottom of the right column are two buttons: "Edit User" (green) and "Delete User" (red).

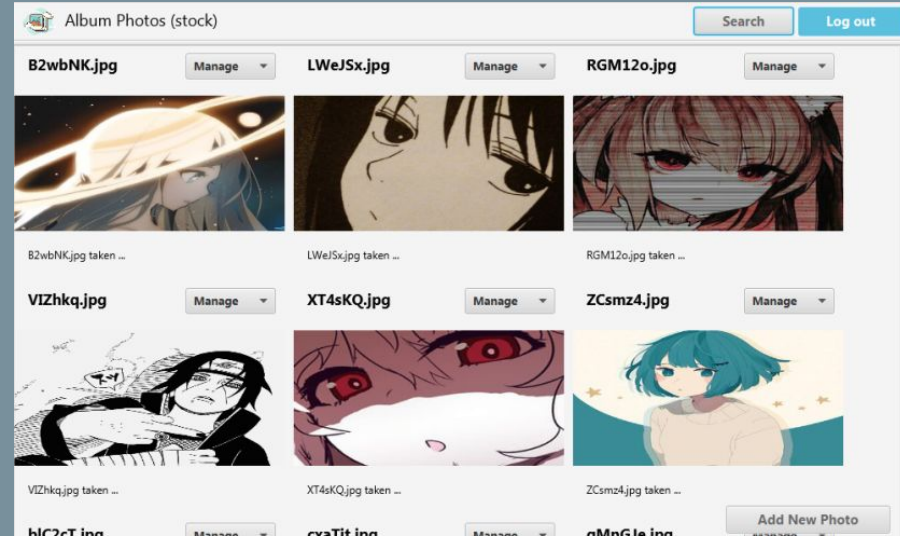

## User Page (Album View)

- A list of available albums are present, we can select an album and choose whether to rename or delete a certain album
- User also has the option to add a new album by clicking on the "Create New Album" button and entering the album name
- The User can also open an Album and be redirected to the Album's Page
- If user is done it can click Log Out and be redirected to the Login Page

# User Page (Album Photos)

- A list of photos which within the selected album are present, we can select a picture and choose whether to rename or delete it
- User also has the option to add a new photo by clicking on the Add New Photo button and entering the Photos address
- User can also search for specific Pictures too by clicking on the Search and searching by given tags and date fields
- If user is done it can click Log Out and be redirected to the Login Page

# Edit Photo Page

- User can edit the Photos Name, Caption and Tags in this page and click the Save Changes button to save these changes
- If user is done they can click on the Go Back Button to go back the the Album View Page
- If the user wants to log out they can click the Log Out button on the top right
